# CONSIDERATION

## UNIX COIN CONSIDERATION

Though our intention is to promote the chance of getting the highest return to all investors. It must also be admitted that when you invest, you're exposed to different types of risk. These risks involve the chance an investment's actual return will differ from the expected return. The greater the amount of risk an investor is willing to take, the greater the potential return. Investors need to be compensated for taking on additional risk.

# CONSIDERATION
